

THREE STARS GROUP

Founded in 1956, is one of Pakistan's most prestigious groups due to the diverse business ventures and undertakings that have shown phenomenal growth. The Group began with a distribution company that distributed apparel, hospitality, and medical scrubs, among other things. The Group's first business venture was Three Star Hosiery Mill, which provided end-to-end apparel solutions. Several ventures centered on the apparel business were conceived in the years that followed, giving the Group the distinction of being the largest private company in Pakistan.

KIDS CLOTHING BRAND

SKIDS

KIDS EASTERN

Skids launched its first step into the kid's eastern wear range in 2022 & immediately evolved as the most fashionable, experimental and creative brand that revolutionized the fashion market with its fashion forward clothing for our little boys & girls. "Skids" is now becoming a household name synonymous with versatile yet aesthetically appealing kid's wear brand.

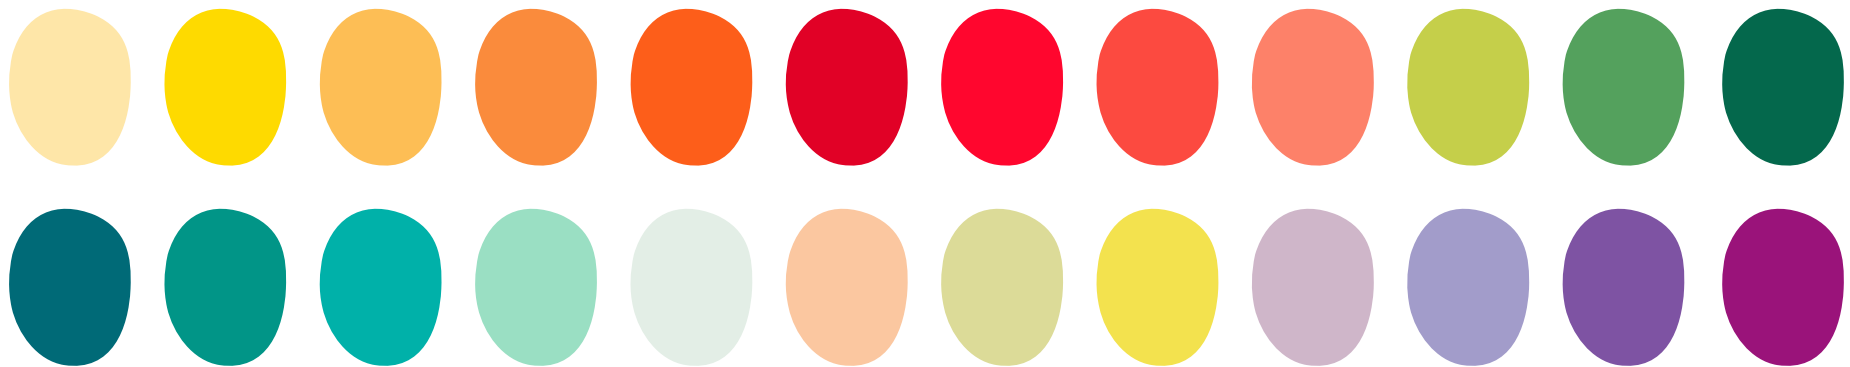

SKIDS

TSH founded Skids in 1996 long before kids fashion was popular in Pakistan. The idea behind skids was a tribute to the joy & wonder of childhood. The aim of Skids was to create stylish & sustainable apparels catering all seasons both in Eastern & Western attires. We have been growing by leaps and bounds to establish our retail network throughout Pakistan in stores & through a pretty cool website, that is our achievement and this is just the beginning.

COLOR PALETTE

We adore our pretty pastels and soft hues which are appealing to eyes, perfect for our little ones. We also shore up neon colors when it comes to making artworks while keeping up with latest trends and best possible elements for the specific age group of our target audience. We capture our children's laughter and pleasure in simplest of things and try our best to create a magical piece of clothing filled with fun & joy.

SKIDS

KIDS WESTERN

Skids' strategy is to promote its design and brand with personality and style with our premium quality of knits wear, trendy cut lines & over the top design elements. Our objective is to create high quality garments at the best possible price and deliver them to you as soon as we can, so your kid can have the flex of wearing skids. We produce millions of garments a year or how we like to think about it, millions of smiles.

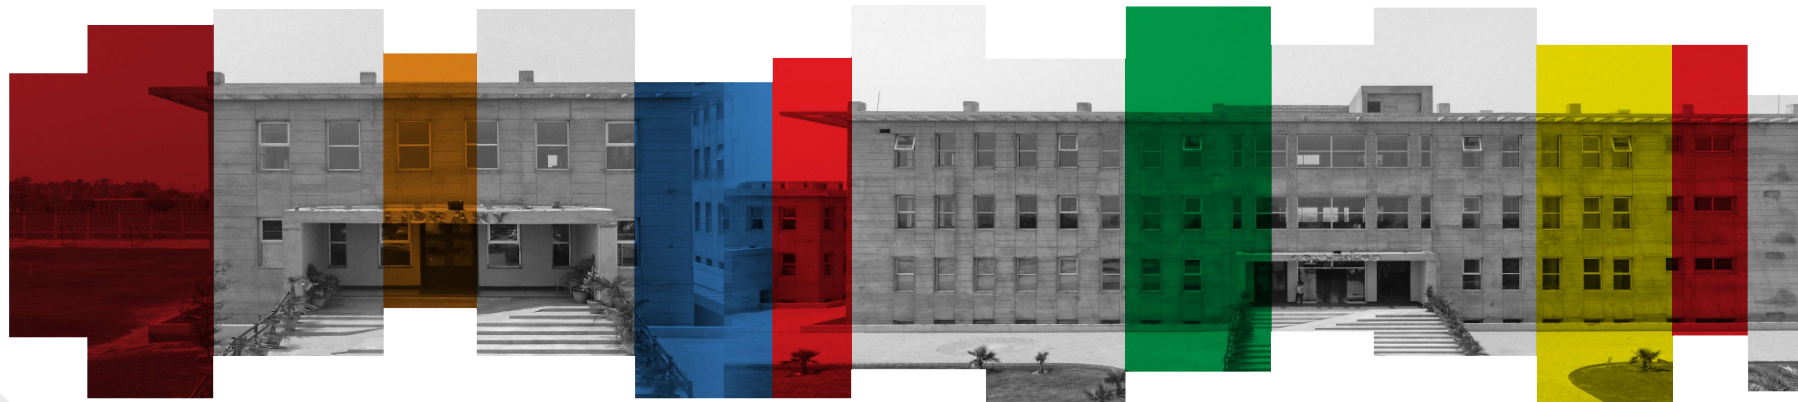

BAKHTAWAR AMIN
MEDICAL & DENTAL COLLEGE
BAMDC

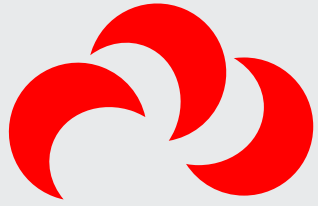

BAKHTAWAR AMIN MEDICAL & DENTAL COLLEGE

Bakhtawar Amin Memorial Trust was founded in 1999 in the historical city of Multan as a non-profit charitable initiative to serve the people of Pakistan. Our hospital provides patients with convenience by employing specialised doctors, testing facilities, and separate wards for males and females. Our location capitalises on the city's urban and rural populations, allowing us to serve various strata of Pakistani society through innovative and exceptional clinical services. Patients who deserve it are given free medication and treatment. We have expanded to include the Bakhtawar Amin Medical and Dental College (BAMDC), Pakistan's most well-equipped college, boasting cutting-edge facilities, cutting edge infrastructure, and quality education. We provide our students with a rich educational experience that is balanced with cutting-edge technologies and learning models, as well as more than a century of medical education tradition. The MBBS degree at Bakhtawar Amin College of Medicine is an amalgamation of clinical and biomedical sciences. Our curriculum engages a variety of teaching methodologies, including lectures, practical classes, independent learning, clinical skills, and patient contact training sessions. The Bakhtawar Amin Memorial Trust Hospital provides clinical training. We believe that exposing students to clinical experiences sparks their interest in the noble field and reinforces basic science's clinical application.

BAKHTAWAR AMIN

MEMORIAL TRUST HOSPITAL

Bakhtawar Amin Memorial Trust Hospital was established in April, 1999 by **Mian Muhammad Rasheed** and his to provide free treatment and quality health services to poor and needy patients who are suffering from serious diseases requiring treatment which they have no hope of acquiring within their meager resources.

The Trust Hospital is registered with the Sub-registrar Urban Multan under the Trust Act of 1882 vide Registration No. 3164/1 dated 08-05-1999. The Trust is also duly certified by Pakistan Center for Philanthropy (PCP) as well as from FBR.

Over a period of more than one and a half decades the Bakhtawar Amin Memorial Hospital has been continuously providing high quality medical and surgical treatment to thousands of deserving and eligible patients through donations, charity and zakat.

It is a modern 500 bedded hospital in Multan with the capacity to cater to healthcare needs of thousands of patients of Multan and South Punjab. The hospital is fully equipped with state of the art Operation Theaters (Ots).

KERYL
We take care of You.

KERYL
We take care of You.

OVERVIEW

We are a healthcare and wellness apparel brand with the goal of redefining the concept of uniform. We strive to create innovative uniforms by utilising the best performing fabrics and careful fit analysis. We design technologically advanced products that provide an unrivalled blend of comfort, durability, function, and style.

FABRICS

The inspiration for the Keryl collection came from the research and selection of fabrics. They are a necessary component in ensuring the comfort, quality, and durability of our garments. We chose innovative, high-quality technical fabrics to give you a modern look as well as a distinct and original style.

ANTI BACTERIAL TREATMENTS

Our clothes have a "SANITIZED" finish, which is a special certified treatment that gives the fabric antibacterial, anti-mite, and antifungal properties. Our fabrics, which are treated with an antimicrobial finish, help to destroy 99.9% of harmful microbes in contact.

SANITIZED, in addition to being an effective anti-microbial, also acts as an anti-odorant, actively preventing the development of sweat odour.

KERYL

We take care of You.

The garments are always clean, hygienic, and resistant to multiple washes. Antimicrobial technology inhibits the growth of bacteria that cause offensive odours. Furthermore, bacteria that metabolise sweat form a biofilm on the textile that is extremely difficult to remove. As a result, even freshly laundered laundry has that noxious odour.

DESIGN INNOVATION

Keryl understands that healthcare workwear is more than just a uniform, so we designed unique garments that stand out from the crowd.

Our scrub tops and pants are designed to be comfortable, durable, functional, and fashionable. We dress healthcare professionals in everyday situations, listening to their needs and feelings in order to improve the uniforms we have designed for them.

Our design team works with passion and dedication to create technically advanced apparel and products that make modern healthcare professionals feel their best.
